Dear Alan,

I would like to thank you for the fantastic led window sign you sold me.

I programmed on my sign **“bring in your past phone bill & let me save you \$\$\$”**

The 1st week I had it in the window I got a new customer instantly,

I have noticed an incredible 10-15% increase in my walk in traffic so far.

I thank you so much! It pays for itself, just like you said.

I would recommend any business with traffic in front of their window to purchase this led sign. It is also very easy to program and change messages. I love it

Regards

A handwritten signature in black ink, appearing to read "David Busse", written in a cursive style.
